(West Zone)**

Organizes

National Conference on

Dairying: A Sustainable Approach for Transforming Livelihoods and Health

10th-11th April 2025

at

Dr. C. Rajeshwari Auditorium, Sri Sathya Sai Sowbhagyam, Atal Nagar, Nava Raipur

Conference Highlights

- ✓ Farmers Session
- ✓ National Quiz Contest
- ✓ Technical Sessions
- ✓ Award Ceremony

Background

India has been at the forefront of global milk production and consumption since 1998 and is on track to become the “Dairy to the World” in the near future. Currently, the country accounts for 24.41% of the world's total milk production, 239.3 million tonnes and the per capita availability of milk is 471 grams per day, with an annual growth of 5%. Despite this impressive output, only 25-30% of the milk is processed by the organized sector, presenting vast opportunities for the dairy industry to expand and enhance the availability of safe and high-quality dairy products. Milk is widely recognized as a nearly complete food, supplying essential nutrients needed for overall health. For generations, dairy products have been a fundamental part of human nutrition, offering multiple health benefits and aiding in disease prevention. India's dairy industry operates on a unique smallholder model, where 80-90% of the milk is produced by farmers managing just 2-5 animals. This sector serves as a primary source of income for more than 80 million rural households and plays a crucial role in generating employment, particularly for women, thereby contributing to their empowerment. Valued at approximately ₹10 lakh crore, milk is the most significant agricultural commodity in India, reinforcing its vital role in the country's economy, nutrition, and rural development.

Purpose of Conference

Dairy sector in Chhattisgarh is at a very critical juncture. The state government is poised to accelerate growth in dairying to replicate successes achieved in many parts of the country. This trajectory of growth will need coming together of academia, industry, farmers and policy-makers as well. Thus, this seminar is aimed at fostering knowledge exchange and highlight innovations in the dairy sector, benefitting all stakeholders.. Esteemed experts and panellists will explore various critical topics, including enhancing milk production and productivity, optimizing feed and fodder resources, implementing smart dairy farming practices, and adopting cutting-edge production technologies. Discussions will also cover broader aspects of AI, digitalization, marketing strategies, safety and quality standards, and sustainable approaches to reducing the industry's carbon footprint.

To recognize the innovations and efforts of significant achievers, IDA will give some special awards to farmers and dairy plants. Also to spread awareness among the students and the society, we have planned an open quiz contest for students and officers of dairy plants.

About Indian Dairy Association

Established in 1948, Indian Dairy Association (IDA) is the apex body of the dairy industry in India. The members are from the cooperatives, MNCs, corporate bodies, private institutions, educational institutions, government and public sector units. IDA functions very closely with the dairy producers, professionals & planners, scientists & educationists, institutions and organisations associated with the development of dairying in India. IDA (West Zone) is actively engaged in promoting dairy sector in five major states of India, viz., Gujarat, Maharashtra, MP, Chhattisgarh and Goa. We are committed to help all our stakeholders, starting from primary milk producer to all in supply chain and the consumers. It is our moral duty to protect the interest of millions of farmers, who are dependent on milk business and at the same time protect the interest of millions of consumers by providing them healthy, wholesome milk products. IDA (West Zone) is planning to reach to each and every person connected to dairying and plans to bring them under the umbrella of IDA.

About DSVCKV

Dau Shri Vasudev Chandrakar Kamdhenu Vishwavidyalaya (DSVCKV) was carved out from IGKV Raipur, on 11th April, 2012 with promulgation of the Chhattisgarh Kamdhenu Vishwavidyalaya Act, 2011. The university caters to broad domains of Veterinary, Dairy and Fisheries sector. The university is entrusted with the mission of developing a highly skilled workforce through its diverse teaching programs, delivering essential support to farmers and entrepreneurs via extension services, and conducting applied research tailored to the evolving needs of the animal sciences sector. The University is mandated to offer teaching programmes at UG, PG, Doctoral levels and UG Diploma at Polytechnic level.

College of Dairy Science and Food Technology (CDSFT), Raipur was established on 14th November 1983 under Jawahar Lal Nehru Krishi Vishwavidyalaya, Jabalpur (M.P.) for offering B.Tech. (DT) programme. Later in the year 1987, it became an integral part of Indira Gandhi Krishi Vishwavidyalaya, Raipur and subsequently, of Chhattisgarh Kamdhenu Vishwavidyalaya from 11th April 2012. Ever since its establishment, it has pioneered Dairy Science education in the undivided Madhya Pradesh state and now in Chhattisgarh.
