

## Book Launch

### Hand Book for Process, Evaporation & Drying Technology Launched

In a glittering function on September 9, 2019 a hand book for “Process, Evaporation & Drying Technology” was launched in the august presence of Dr. G.S. Rajorhia, President, Indian Dairy Association at Hotel Surya, New Friends Colony, New Delhi.

The author of the book is well known dairy professional, Mr. R.P. Singh, Managing Director and CEO, Food & Biotech Engineers (India) Pvt. Ltd. While appreciating the efforts of Mr. R.P. Singh, Dr. Rajorhia said that Mr. R.P. Singh has been serving the dairy sector for the last four decades. We have been watching the growth of his organization since beginning. He has successfully executed several dairy projects including ‘fruit & vegetable concentration and soybean plants’ in India, China and many other countries. Most of the renowned dairy plants in India have been set up by Mr. Singh. As a teacher, I am also delighted that one of my students has set a milestone in the dairy sector. He has enriched his book with his long practical experience, which he has gathered during his professional journey. It is a great service rendered to the dairy industry not only in India, Asia but all over the world. His experience will remain in the book for centuries. This book will serve as a guide for the industry and food engineering students.

Mr. R.P. Singh has been serving the dairy industry through his organization supplying Dairy Processing Equipment, Dairy Processing Machinery and other Mechanical vessels, Industrial Equipment, Evaporators, Dryers, Pressure Vessel, Storage Tanks, Stainless Steel Piping & Structural Works etc. He is specialized in Dairy Products, Food Products, Fruit & Vegetable Products, Pharmaceutical Products, Biotechnological Plants along with Fabrication & Erection of Plant & Machinery.

President, IDA congratulating Mr. R.P. Singh, the author of the book.

Releasing of the Hand Book at Hotel Surya, New Delhi
